Dear Mr. Gower,

Please excuse my typing and my haste. I'm 81, not well, with much mail and work I still want to do.

Fletch Prouty is as sincere as he is wrong about seeing that story in NY a day early.

What you say about the rifle having a dirty bore is interesting and if it were possible to have a record could be useful but I doubt Forest Lucy would give such a statement.

I do not believe the Art Sinclair story.

Thanks and best wishes,

Harold Weisberg
